Thanks for taking the time to review my resume. I'm about to graduate from Florida State University with a Bachelors in Information Technology and a Networking & Web Development concentration. I've always had a passion for technology and its potential to simplify peoples lives.

2010- now

Web Developer
FSU Center for Global Engagement
cge.fsu.edu

I develop and maintain their Websites, Social Media, Adobe Lifecycle Forms and Sharepoint Document Management Services.

2007-10

Communications Assistant
Tallahassee Community College
www.tcc.fl.edu

Worked directly with communications director assisting with Web-Development, Graphics, Social Media, Archiving and Training Staff. Assigned lead role on projects such as redesigning student portal and establishing colleges' social media presence.

2006-07

3D Renderings / Web Developer
Kitchens Alacarte
www.kitchens-alacarte.com

My primary task was converting kitchen floor plans into state of the art 3D renditions using a custom rendering application. Additional responsibilities included Web Development, Computer Maintenance and Repair, Network Configuration and Graphic Design.

2005-06

Technician / Sales
iPower Computers

Worked as a Computer Technician performing solution oriented troubleshooting, repairs, assembly and configuration. Also worked as the Sales Representative selling computers, parts and other peripherals. Also worked as a network technician configuring & maintaining networks and Point of Sale systems.

2003-04

Assistant Technician
International Lottery Authority

Helped manage and maintain a network which included: 2 Terminal Servers, over 40 terminal desktops, 2 Database Server (with backup) and IIS 5.0 Web-Server and Active Directory. Additional responsibilities included web development and Telephone Support.
